

Key Benefits:

- Tank inventory levels available in **Real Time** from your smartphone.
- **Automated data collection** from your remote tanks.
- **Organize** all your tanks online in one database.
- **Analyze** real time data and make timely decisions.
- **Optimize** deliveries and **increase your efficiency.**
- Manage **alarms** online to receive **instant notification** regarding tank levels.
- **Increase profitability** with the efficiency of real time tank monitoring.

We connect your assets to the internet.

eTankdata™ is a cloud based tank monitoring solution. The **unique feature** of eTankdata™ is the mobility it provides while managing the system. Users have access to the cloud server to monitor and control tank inventory anytime, anywhere, from a desktop computer and mobile devices. From a smartphone users can check inventory levels, setup and monitor alarms as well as analyze historical data.

Overview:

- eTankdata™ is an ideal way to automate tank inventory and field operations.
- Cellular communication automates the data collection process from remote tanks.
- eTankdata™ allows the operator to receive scheduled data reports from remote tanks.
- Utilize real time tank data to optimize and streamline the decision making process.
- The secure online cloud server allows various user access levels so staff can perform their daily tasks.
- Instantly alert the user with a configurable alarm system to monitor high and low inventory levels.
- Compatible with most industry standard level sensors.
- Four (4) Analog inputs can monitor level sensors, temperature, pressure, or other industry standard sensors.

Features:

- Monitor up to four (4) tanks with one eTankdata™.
- Four (4) outputs.
- Four (4) digital inputs.
- 12 Vdc Supply Voltage.
- Self manage projects, users and alarms.

Sensor Options:

- Ultrasonic level sensors.
- Floats.
- Wave guides.
- Pressure.
- Point level.
- Low temperature sensor options for -40C.
- CSA certified sensors for hazardous locations.

Options:

- GPS options provide automatic location on the eTrackdata™ map for mobile tanks or for an accurate date, time and undisputable location stamp on your data logs.
- CSA certified models available for hazardous locations.
- NEMA 4X weatherproof enclosure.
- Customize a proprietary dashboard for your company.
- Solar Power and battery backup for off-grid operation.
