Telecom Remote Monitoring Solution

Enhance productivity | Improve Asset Utilization | Maximize availability Minimize operating cost | Optimize energy consumption

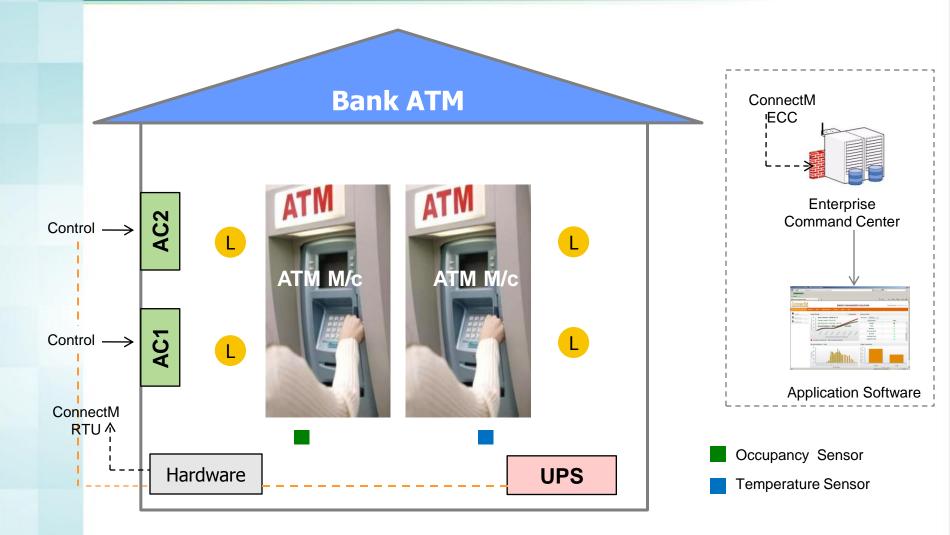

TOC Overview

Solution Architecture – Lighting and AC Control + UPS

Requirement at ATMs

- Remote Monitoring of UPS in ATMs
 - To enhance user experience by minimizing ATM downtime on account of UPS drain out.
 - Individual Battery level monitoring, reporting, alerting and analytics to identify aging batteries and replacing them before the entire bank ages out
 - Centralized Control Head Office/ Branch office level
- Energy Management in ATMs
 - Energy Savings on Lighting and Air-conditioning in ATMs
 - Green Banking Positioning of Indian Bank as Green Bank
 - Option to Implement in Branch and Regional offices

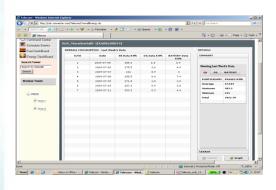

Diagnostics & Reporting Capability

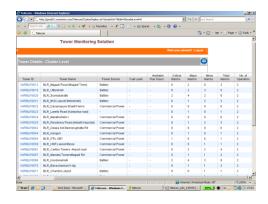

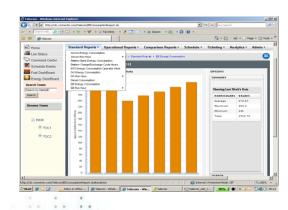

Investments, Savings and Indicative ROI for the Solutions

Solution: Tower Monitoring Solution			
Particulars	Price (INR)		
Capex (Per Tower)	Rs. 75,000		
Opex (Per Tower Per Month depending on geographies covered)	Rs. 1200 - Rs. 1800		
Revenue Share (Aircel:ConnectM)	50% : 50%		
Indicative ROI	15 - 24 months		

Solution: ATM Monitoring Solution			
Particulars	Price (INR)		
Capex (Per ATM)	Rs. 35,000		
Opex (Per ATM per month)	Rs. 2,000		
Revenue Share (Aircel:ConnectM)	50% : 50%		
Indicative ROI	20 - 30 months		

Solution: Energy Management Solution			
Particulars	Price (INR)		
Capex (Per Sq. Ft. of Built-Up Area)	Rs. 50		
Opex (Per Sq. Ft. per Month)	Rs. 0.5		
Revenue Share (Aircel:ConnectM)	50% : 50%		
Indicative ROI	20 - 30 months		

ConnectM
a Sasken and IDG Ventures company

ConnectM M2M Other Applications deployed

Industry	Client	Solution	Benefits
Utilities	JUSCO	Automated Water Metering	Automated meter readings at water distribution zones in Jamshedpur. Enabled customer to get accurate data and integrate with their SAP. Made billing process completely automated and reduced manual intervention
Construction	HCC	Batching Plant Automation	Enabled real-time data collection and transmission of their concrete mixing plant to help customer to manage inventory better. Reduced planning time from months to real time. Data integration with SAP was made possible in real-time with out manual intervention and data accuracy was 100%
Construction Equipment	Electromech	Remote Monitoring and Diagnostics of Industrial Cranes	Enabled real-time monitoring of cranes for Emech at their customer locations to analyze usage patterns, diagnose break-downs, and avoid warranty claims due to abuse. Monitor critical parts of the cranes to avoid break-downs ensuring smoother production process.
Banking	HSBC	Remote Asset Management	Complete monitoring and control of energy assets like UPS, battery cells, Air conditioner critical to run servers and computers to avoid any down-time. Real time alerts for preventive maintenance and fault management helped customer to have information real-time and take appropriate actions. Solution resulted in improving uptime and energy savings and fuel pilferage
Water Treatment	Rochem	Remote SCADA	Helped Rochem to remotely monitor their water treatment plant and manage configurations of PLC units. Provided preventive maintenance alerts to improve efficiencies
Fleet Management	Volvo	Fleet Management	Integrated GPS tracking with the Volvo truck controller to extract information about machine run/idle time, fuel consumption, alerts that helped customers of Volvo to monitor the utilization of their vehicles and track their location accurately. Get maintenance alerts based on engine run hours.
Packaging	ITW	Remote PLC Monitoring & Programming	Enabled ITW to provide remote service to their clients where they had to visit them to make changes to PLC programs or configurations based on customer needs. This resulted in reducing cost and improved resource utilization better. Customers of ITW could see huge TAT for resolutions.
